

| ^   | Client ————————————————————————————————————  |
|---|--|
| A   | Client Client  |
| Defining Clear Deliverables and Breaking Down Tasks   |  |
|   | Clearly define project objectives and deliverables.                                  |
|   | Break down the project into manageable tasks with specific outcomes.                 |
|   | Assign responsibilities to team members and ensure understanding.                    |
| Establishing Realistic Timelines and Milestones       |  |
|   | Set achievable deadlines for each task and milestone.                                |
|   | Consider the complexity of tasks and the team's capacity when determining timelines. |
|   | Create a project timeline with clear milestones for tracking progress.               |
| Effective Communication with Clients and Stakeholders |  |
|   | Initiate regular communication with clients to understand expectations.              |
|   | Clearly communicate project scope, objectives, and deliverables.                     |
|   | Provide clients with a realistic timeline and prompt updates on any changes.         |
| Advocating for Resources and Prioritization           |  |
|   | Monitor project progress and identify potential bottlenecks.                         |
|   | Assess the need for additional resources based on project requirements.              |
|   | Advocate for necessary resources or task prioritization to meet deadlines.           |
| Review and Continuous Improvement                     |  |
|   | Conduct regular reviews to assess project progress and performance.                  |
|   | Identify areas of improvement and lessons learned.                                   |
|   | Update the checklist based on feedback and experiences.                              |
